

E-Zee Cap®

~ A Heavy Weight, Soft Tear Away Cap Stabilizer

E-Zee Cap® 3.0 oz. is a heavy weight Tear Away stabilizer cut specifically to fit in cap frames. Tension is maintained with the use of a cap stabilizer, resulting in clean, clear and crisp designs. Great for the front, sides and back of structured and non-structured caps. Tears away cleanly and easily.

How to use Tear Away Cap Stabilizers

1. To prevent “flagging,” be sure that the design is digitized for caps. These designs should stitch from the center out and from the bottom up.
2. Keep the designs within the allotted sewing area of your cap and frame.
3. Most caps require a sharp needle. If you experience needle and thread breaks, try using a #80/12 standard eye sharp point needle.
4. Using a longer piece of cap stabilizer that covers two-thirds around the cap may help to securely hoop the cap. This will keep it firm and stable while embroidering.
5. Underlay stitches can also assist in avoiding “flagging.”
6. Choose caps that work best with your hoops and machine.

Available in these sizes:

Pre-cuts - 250 pieces per pack

- 4.5” x 7”
- 4” x 12”

Rolls

- 4.5” x 50 yards
- 4.5” x 150 yards

Available in white
