

E-Zee Crinoline

~ A Woven Mesh Material

E-Zee Crinoline is a woven mesh material that is used to add stiffness to badges and emblems.

For more information and instructions on how to make patches, download Prof. T.H. Read's *Creating Patches* at ezeebacking.com.

General Guidelines for Creating Badges and Emblems

1. Hoop fabric, E-Zee Crinoline and/or stabilizer.
2. Embroider design. It is helpful to have a "cut line" incorporated into the design to act as a guide when cutting the patch.
3. Apply heat seal (either 4220 or 3218) to the back of the embroidered fabric. Use an iron or a heat press to bond heat seal to patch material.
4. Cut patch to shape with scissors or die cutter.
5. Finish the edges using a serger or over-edging or with a zigzag stitch on a sewing machine.

Available in these sizes:

Rolls

• 49" x 10 yards

Available in white
