

E-Zee Poly Mesh

~ A *Lightweight Woven Cut Away Stabilizer*

E-Zee Poly Mesh 1.5 oz. is a lightweight low profile, 100% polyester woven stabilizer. Use it to prevent show through on white or light colored fabrics. Also recommended for designs with narrow columns or points. Use with a lightweight Tear Away for best results during the embroidery process.

How to use Woven Cut Away Stabilizers

1. Cut a piece from a roll of **E-Zee Poly Mesh** stabilizer and a piece of **E-Zee Tear® Lightweight** stabilizer appropriate for your design and hoop size.
2. To hoop, place the Tear Away stabilizer down first, then E-Zee Poly Mesh and place the garment on top.
3. Embroider the design and remove the embroidered item from the hoop.
4. Tear off the excess Tear Away stabilizer first.
5. Trim the excess E-Zee Poly Mesh stabilizer with scissors.
