

E-Zee Cut® Green 1.7 oz.

~ **A Medium Weight, Recycled Polyester Cut Away Stabilizer**

E-Zee Cut® Green 1.7 oz. is a medium weight Cut Away stabilizer with a soft hand and uniquely made from recycled polyester. Use a single layer for designs with a small to medium stitch count, or stack two layer for designs with a large stitch count. Cut Away stabilizers should be used for unstable and stretchy textiles, making E-Zee Cut® Green ideal for use on all knits and light to medium weight woven fabrics. Combine with Madeira's Polyneon Green threads and eco-friendly garments for a complete sustainable offering.

How to use Cut Away Stabilizers

1. Cut a piece from a roll or use a piece of pre-cut **E-Zee Cut® Green** to fit your hoop size.
2. Hoop by placing the stabilizer underneath the garment and secure the hoop.
3. Embroider the design and remove the embroidered item from the hoop.
4. Trim the excess stabilizer with a sharp pair of scissors or shears, leaving approximately ¼" around the outside of the design. Rounding the corners instead of leaving them square or pointed will prevent curling.

Available in these sizes:

Pre-cuts

- 7.5" x 8" - 250 pieces per pack

Rolls

- 7.5" x 109 yards

- 40" x 109 yards

Available in white

Item Prefix R18-(products)

Please Note

To avoid nicking the fabric when trimming away E-Zee Cut® stabilizers, hold the stabilizer while trimming and let the garment drape. Be sure to face it so you can see both the edge of the design and the fabric while you are trimming.
